

Seven Sacred Paths

The Seven Sacred Paths is a series of seven workshops for those wishing to progress on their path of enlightenment.

These routes of initiation were the trials and life puzzles taken by our tribal ancestors as they moved from young adult to elder. To reach the seventh path depended on the neophyte's ability to learn life's lessons.

These day workshops offer an opportunity to understand the tests ahead and the demands required to truly move toward enlightenment and the gifts that this brings. Deep magic is only available to the person whose connection allows spirit to flow to meet the universal energies and hidden realms. This is the first step to that connection.
