

Women's Mysteries

Learn the secrets of the woman's house as we dip into the realms of the ancient mystery schools.

Three workshops are available individually as a progressive journey reflecting the aspects of maiden, mother and crone. We will be learning the ancient rites and ceremonies, practising the spells, chants and magic hidden behind the closed doors of the temples.

“Through the eyes of the virgin, the future is both tempting and frightening. The gifts of the great mother make the older women smile and laugh as they whisper and tease. The bones of the grandmother grate as she watches the mating rituals of youth but is comforted by her knowing heart that she will walk this path again.”

The Moons Maidens Join in a full moon ritual as we learn the relevance of the moon-journey, the spells and ceremony connected to the ancient rites.
